

Attention Parents and Grandparents!

**Don't let prescription drugs fall into precious hands!**

Talk to you your kids about the dangers of prescription and over-the-counter drug abuse.

Safeguard all medicines. Know exactly what medicines you have and how much is in each bottle or package.

For More Information:  
Call the Coalition office at  
319-462-5030 or visit

Everyday disposal of controlled prescription drugs  
NEW at the Jones County  
Sheriff's office!

The Jones County Sheriff and JCSHY Coalition are providing this community service because the nonmedical use of prescription drugs is a significant risk to the health and safety of our citizens and because many of these misused drugs come from home medicine cabinets. Of particular concern are controlled substances such as painkillers, depressants, and stimulants.

The disposal unit pictured above is located at the Jones County Sheriff's office.

Three out of five teens say that prescription drugs are easy to access in their parent's medicine cabinet.
